

STRUCTURAL WOOD SYSTEMS

DIVISION OF HARRISON INDUSTRIES, INC.

THE PINE PRESS

4TH QUARTER 2017

VOL 6 ISSUE 4

One of our real joys this holiday season is the opportunity to say thank you for your support and business this year. As we prepare for 2018, our hope is that you and yours find health, happiness, and prosperity in the New Year. In warm appreciation for our association during the past year, we would like to wish you a

Merry Christmas and Happy New Year!

Thanks to the skilled craftsmen in our fabrication department, the scalloped ends of the members pictured above are beautiful.

This beautiful arched truss entrance to one of the retail shops only adds to the charm of downtown Gatlinburg.

Anakeesta is a Cherokee word referring to high ground, literally meaning "the place of the balsams."

FEATURED PROJECT

ANAKEESTA

Anakeesta is a wonderful new family attraction located in the Great Smokey Mountains of Tennessee. Guests can experience the magic of the Great Smokey Mountains by embarking from the heart of Gatlinburg on a 14-minute ride via Chondola (pictured above right) to the summit of Anakeesta Mountain. At the top, guests have the opportunity to visit Firefly Village, hike mountain trails, and zip-line, among many other activities.

SWS Sales Representative, Kenny Williams, worked diligently to budget successfully an aesthetically pleasing blend of glulam and steel. The result of his hard work is a wonderful new addition to downtown Gatlinburg. Anakeesta includes a ticket booth and retail building where guests can shop before riding to the summit.

As Gatlinburg continues to rebuild and expand, we look forward to being a part of other amazing and beautiful projects like Anakeesta.
